The new Executive Committee was duly elected, and charged with keeping our CPB going and growing for the next two years. Wendy Gonneau will head up the board, and will be joined by those members listed on the right.

*"I believe in my heart that this Association is one of the best for the sharing of knowledge & experience. With our help, and the help of other members, this Association can be all that we need it to be and more, but we have to help it to grow, in a healthy and positive manner. Your opinion counts, please feel free to share these with me or with PPO's President Luis Jeronimo. We can grow together. We can learn together." - Wendy*

Our website has hot links to all the members of the board, so it's easy to keep in touch.

A big **thank you** to past members of the executive.

Happy New Year to All!

Featured Speaker at the November 23, 2009 meeting was **Judy Cormier**. She walked us through a typical Boudoir Experience, including a slide show of her work. Coming from a corporate background, Judy was very comfortable in figuring out how to make money and enjoy her passion for photography, all at the same time.

Encouraged by prizes of her promo booklet, lots of good questions were asked by the members.

## Embracing change and simplifying Lightroom

EnlightenMe is a resource for photographers, dedicated to the business of photography.

Our goal is to give you the knowledge you need, the confidence to go farther and the practical tools to grow your photography business.

We are passionate about photography, we're excited to learn new things, and thrilled to be able to share it all with you.

EnlightenMe is: Bryan Caporicci and Robert Nowell

Enlighten US! We want to share what we've learned, but we also want to find out what you want to know. We want to make sure our focus is on things that are useful to you and your business. What burning questions do you have? What do you want to know more about?
